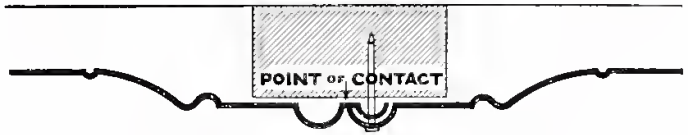
HOW TO ORDER

Give character of work, viz.—Church, Hall, Store, etc.
Show every dimension in order that our designer can make correct drawing of the work.
Note nature of surfaces as plaster, joist, sheathing, terra cotta, etc.
Make a complete list of patterns selected, or mention one pattern and state that the cornice, border and other members are left to our judgement.
Prices made F. O. B. Boston for metal and nails,—furring and furring nails extra if called for.
Any carpenter can erect metal from our working drawings, or we can furnish mechanics at regular rates and expenses.
We are prepared to quote on work installed complete, ready for painting and make a specialty of expert decorating.
Prices quoted on request for special work F. O. B. Boston or installed complete and decorated.



COUNTERSUNK JOINT
CONSTRUCTION

THE PENN METAL CEILING & ROOFING CO., Ltd.

201 DEVONSHIRE ST., COR. FRANKLIN ST., BOSTON, MASS.

GEO. A. SAGENDORPH, Manager for New England

DIRECTIONS FOR APPLYING PENN METAL CEILINGS

Metal ceiling and walls may be applied direct to level wood sheathing, except deep panels.

If surfaces are plaster or joist, use ⅞ x 1½ or 2 inch furring strips and apply same for nailing every joint, taking care to level the furring.

When additional furring is required, the working drawing will give the necessary information.

Measure fieldplates, borders, coves, etc., and chalkline all furring as per working drawing.

Place cornice first, then filler and field plates last, tamping all joints with a flat edged tool.

Stamped mitres are furnished at extra cost with certain cornices, but a cut mitre makes a neater finish and is cheaper.

To cut a mitre on cornice or mould, cut stock like a wood cornice of same section, only ¼ inch longer than needed, then snip this ¼ inch lap every ¼ inch all the way up the lap, so as to bend same in or out, at right angles, to turn over the other member on an outside mitre, or to butt up against other member on an inside mitre, then tamp down carefully.

Wood brackets furnished for all cornices larger than 3½" x 3½", unless otherwise shown.

All metal is primed one coat on each side before shipment, with light colored paint.

Follow the working drawing carefully (we furnish a drawing with each order) count your stock upon arrival and before putting it up, see that it corresponds with the drawing.

Shears for cutting metal will be loaned or sold at $2.00 per pair.
